What's happening?

My bad. I am so late in getting the third quarter newsletter done and this will provide a final month of the third quarter plus fourth quarter Information.

Submissions to headquarters during this quarter are:

- The Annual Activities Report is submitted to headquarters by November 15 to provide information on what the club is doing in the name of service. This report is required for the club to maintain our 501(c)(3) status.
- Any time a new member is added or deleted from a club, a Membership Information Form is required.
- Application for Club Grant must be made online by November 1 to support a community charitable program or organization.
- National dues invoices are also paid to headquarters upon receipt.

During this quarter, it is important that the board and each committee review club goals for the year.

What's happening this quarter?

Locally, our new committee assignments and all groups are actively planning goals and plans of action for the year. Equally important is determining a budget. There are always certain expenses that have to be made. For example, your club dues are based on what must be collected to cover the dues, fees, insurance, etc. expected by headquarters and operational costs to run the club's business. For our club to assist community organizations, Ways and Means provides an estimated budget from planned events throughout the year that enables Sponsorship to plan their budget of who gets how much and when, based on the timing of fundraising events. All other committees get involved in some way with each of these endeavors.

WAYS AND MEANS

This quarter was kicked off with the Littleton Craft Fair which was fun and profitable. The next fundraiser is:

- Lynch Creek Farm holiday decorations which include wreaths, trees, centerpieces, home décor and salmon. Yes, smoked salmon. Yum

SPONSORSHIP

Our affiliates and sponsored organizations continue to be supported financially and through volunteer help.

We continue helping IFCS sort produce that allows IFCS to provide fresh fruit and vegetables to families weekly. On Nov. 19, we will be helping assemble Thanksgiving boxes that IFCS will hand out to people. And I am talking hundreds of boxes.

Have you ever been to Gracefull Café on Curtis in downtown Littleton? They provide breakfast and lunch to everyone.

Some can't pay and some of us pay more than the cost to make up for those who can't. It's good food too. Try it!

PROGRAMS

Speakers will be included in our breakfast meetings, whether in-person or via ZOOM. Some are yet to be determined so let Susie Anderson know if there is someone who you think would be a great speaker for our group.

Barb Lotze with Cycling Without Age was wonderful and Troy Knuckles with Howdy Homemade Ice Cream was inspiring in that his heroes that work for him are special needs people.

Who we look forward to include:

- November 2 – Lt. Richard Anselmi speaking on his Reading to Horses Program using miniature horses. And yes, miniature horses will come to Toast.
- November 15 – Maybe Meals on Wheels
- December – Probably holiday fun

Sertoma Service Project Donations

This year Dry Creek Sertoma purchased two Portable InfoLoops to help the hard of hearing community. The InfoLoop is a completely self-contained induction loop system that amplifies sound within a specific area for people with telecom equipped hearing aids, cochlear implants and induction loop receivers.

It is a pleasure to provide Doctors Care with this device. Doctors Care is a non-profit organization dedicated to the community. Their mission is to 'provide affordable, high-quality health care and services that promote overall health and wellness for those in need.'

CEO Bebe Kleinman and Medical Director Stephanie Segal were especially pleased with the prospect of being able to pass along in-depth evaluation information to hard of hearing parents or caregivers regarding their children, as well as an enhanced capability of providing hard of hearing clients with a thorough evaluation.

The simplicity of the loop's use and benefit to the public make it a win win situation. By having the device within three feet of the audience, the listener's hearing aid will magnify the information communicated to them.
